Innovations for WINDPOWER 2018

- **Ted-style Talks:** Policy leaders, industry experts and visionaries gave short, thought-provoking presentations in the General Sessions.
- **Thursday Town Hall Event:** Attendees gathered on the show floor to hear from industry leaders, but more importantly to ask questions and add their perspective.
- **e-Poster Gallery:** A modern take on poster presentations allowed for more self-directed and collaborative learning opportunities.
- **Lunch & Learns:** Attendees & exhibitors submitted topics prior to the conference that were used for informal discussion and networking over lunch.

“The WINDPOWER conference is the most power packed few days of the year for the TPI team. Our senior leaders in business development, operations, sourcing, and investor relations all have full schedules of meetings for 2.5 days right in our booth on the trade show floor.”

—Steve Lockard,
President and CEO of
TPI Composites Inc.

By the Numbers

Overall Attendance **7,600**

↑ **10%** from 2017
